Dasara

Dasara is the most popular Hindu Festival. It is celebrated on tenth day of Navaratra. It signifies the victory of Lord Ram over the demon Ravana in the Indian epic of Ramayana. It is one of the festivals that celebrate the victory of good over evil in Hindu Religion. It is also celebrated as the victory of Goddess Durga over the demon Mahishasura. The fight went on for nine days and nine nights. The tenth day is celebrated as Vijayadashmi (also known as Dasara).

Wonder

A Book Review By : Shlok Deshpande

Wonder - by R. J. Palacio is a fascinating book that was a NewYork Times bestseller for over 5 years. It's received multiple national and international awards and is in the top 100 USA best sellers. I have read this book many times, read the sequel and have watched the movie.

This book goes into the minds of a lot of different characters, including the main character Augie Pullman. Augie is a normal kid, but others don't see him this way. I love

how the book shows how other people feel around Augie instead of only seeing Augie's thoughts.

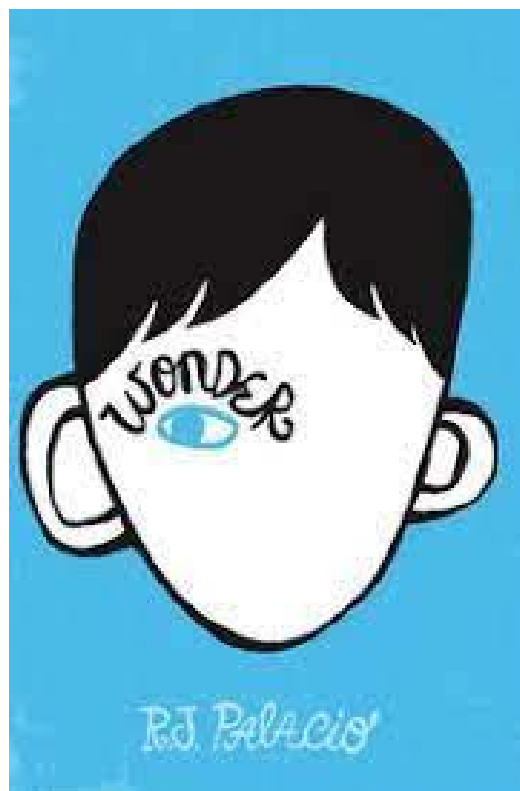

I love this book but there is one thing I would change. I would have liked to know the thoughts of the main antagonist. Though we do see the world through his point of view in the sequel, I would have liked to see it in the original book.

This book is so good that it turned into a movie. Both the movie and the book are great, there are a few differences between the two scripts. For example, when Auggie's dog dies in the book, he gets a new dog named Bear. In the movie, however, there is no new dog. Also, in the movie, we never saw the world from Justin's (Auggie's sister's boyfriend) point of view as we did in the book.

The Wonder book, movie, sequel are all moving and convey a powerful message. I would recommend this book to anyone who feels different or likes to read in general.

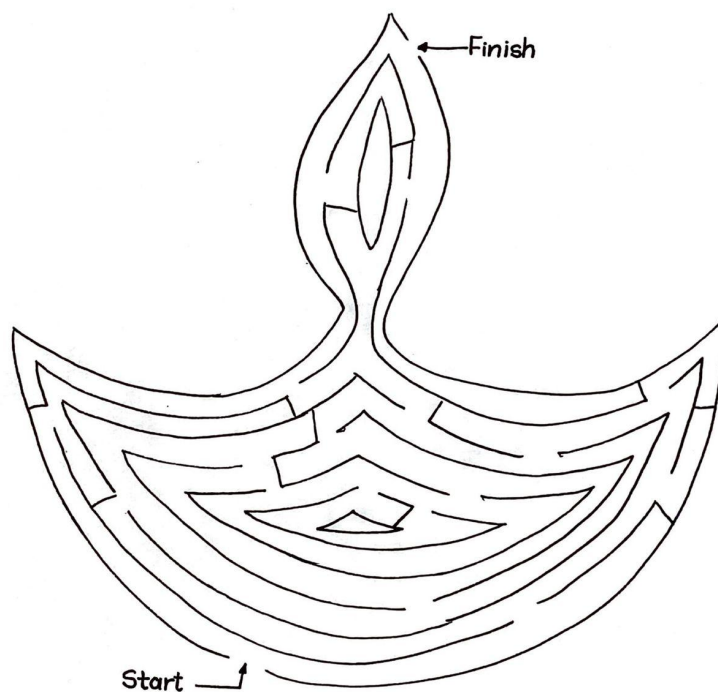

As a tribute to this fantastic book, I painted a pumpkin to look like the book cover for my school's book character-themed pumpkin painting contest. Here is the picture of the pumpkin.
